

PORTAL ISTEMAAL GUIDE · ROMAN URDU · UPDATE 2

Badar *Natural* Foods — Business Portal

Owner aur customer, dono ke liye mukammal step-by-step guide — portal ke asli screens ke saath, plus naye add-ons (barcode, reports, credit control, cancel/refund).

Is guide mein kya hai

- | | |
|----------------------------|--|
| 1 Login (Owner + Customer) | 2 Dashboard — aaj ka hisaab |
| 3 Stock / Items | 4 Barcode Scanner Naya |
| 5 Wholesale Purchase | 6 Suppliers — Payable |
| 7 Wholesale Sale | 8 Retail Sale (fast) |
| 9 Customers + Portal Login | 10 Rates, Discount, Credit Limit Naya |
| 11 Invoice — Print / Share | 12 Cancel / Refund + Reprint Naya |
| 13 Ledger + Payment lena | 14 Reports Naya |
| 15 Customer Portal | 16 Settings |

i Portal ka usool — "Aik stock, do counter." Retail (pao/adha/kilo) aur wholesale (bag/kg) dono **aik hi stock** se chalte hain. Sab kuch grams mein track hota hai, rate per kg. Owner sab manage karta hai; customer sirf apna **khaata aur bill** dekh sakta hai (read-only).

Is update mein kya naya hai: Barcode scanner (stock-in + sale dono mein), har customer ke liye **special rate / discount / credit limit**, sale **cancel ya reprint** karne ka option, mukammal **Reports** section (sales, profit, best-selling, cash, credit), aur invoice par **boxed table** + Urdu Nastaleeq tagline + Download/Share buttons. Neeche **Naya** tag wale sections dekhein.

1

SHURUAAT

Login — do tarah ke

Aik hi login form. Owner apni **email** se, customer apne **phone number** se login karta hai.

Login screen — "Email or phone" field: email likhein to owner, phone likhein to customer.

Owner

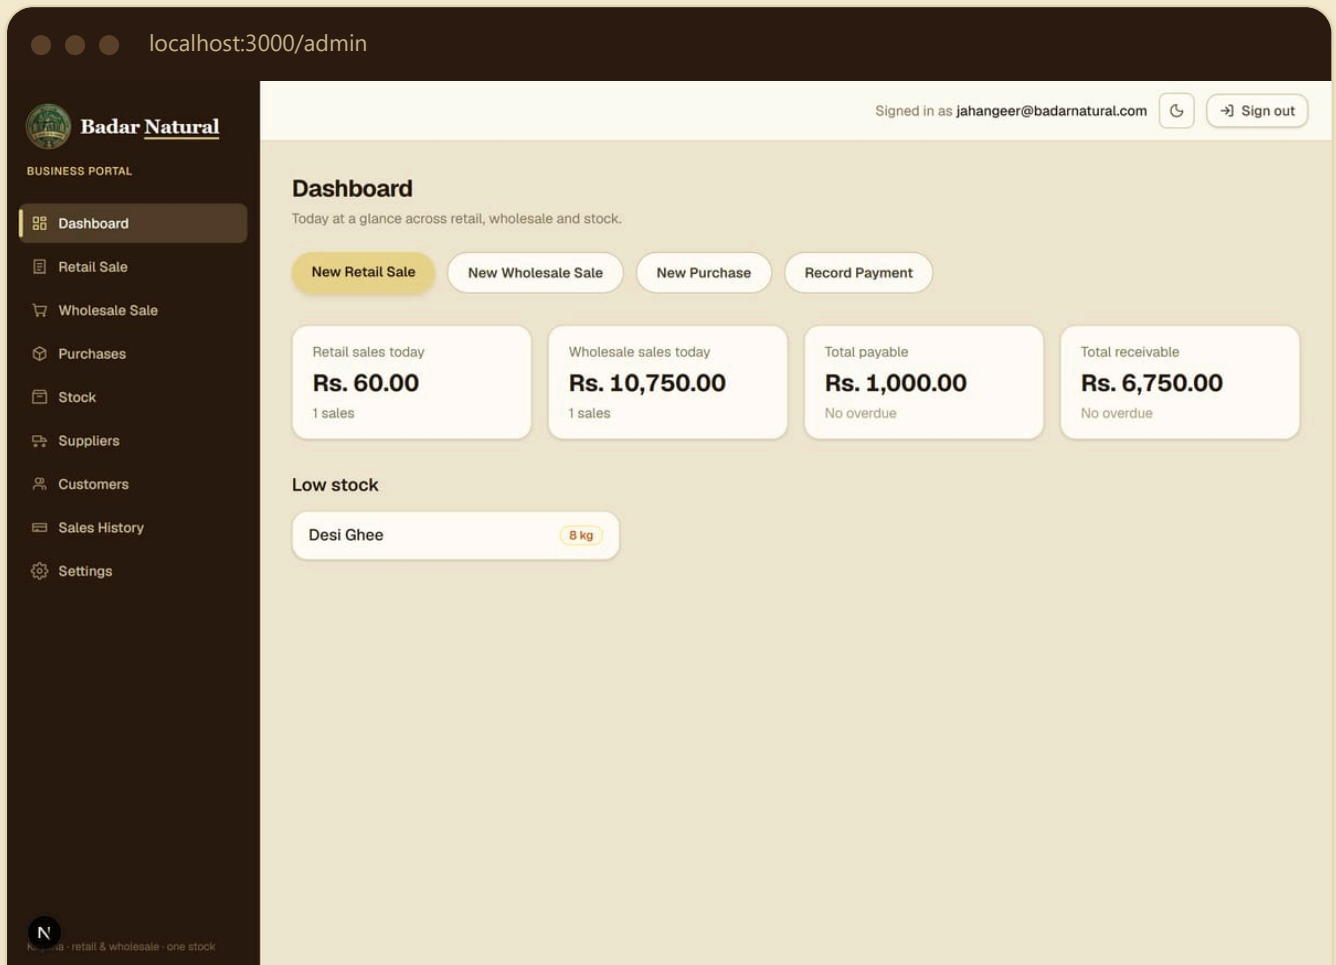

- 1 **Email** + password → **Sign in**
- 2 Seedha **/admin** dashboard.

Customer

- 1 **Phone number** + owner ka diya password.
- 2 Apna **/portal** khulega.

Dashboard — aaj ek nazar mein

Login ke baad pehli screen — aaj ka poora hisaab upar hi.

Left sidebar poore portal ka menu hai. Cards: aaj ki retail/wholesale sale, total payable/receivable, aur low-stock items.

- **Retail / Wholesale sales today** — aaj kitni bikri hui.
- **Total payable** — supplier ko kitna dena hai • **Total receivable** — customer se kitna lena hai.
- **Low stock** — kaun se item khatam ho rahe. Upar **quick buttons**: New Retail / Wholesale Sale / Purchase / Record Payment.

Stock / Items — maal ka register

Har cheez (atta, chawal, ghee...) pehle yahan add hoti hai. Yehi aik item retail aur wholesale dono use karte hain.

Stock

One inventory shared by retail and wholesale. Stock moves only through purchases and sales.

+ New item

ITEM	CATEGORY	IN STOCK	RETAIL /KG	WHOLESALE /KG	LAST BUY /KG	MARGIN	
Chakki Atta	Atta	449.5 kg	Rs. 120.00	Rs. 95.00	Rs. 82.00	+46%	Edit Deactivate Delete
Basmati Chawal	Chawal	40 kg	Rs. 340.00	Rs. 300.00	Rs. 270.00	+26%	Edit Deactivate Delete
Desi Ghee	Ghee	8 kg Low	Rs. 1,600.00	Rs. 1,450.00	Rs. 1,300.00	+23%	Edit Deactivate Delete

N

Badar Natural - retail & wholesale - one stock

Har item ka stock (kg), retail/wholesale rate, last purchase rate aur margin. Kam stock par nishaan.

Naya item — Stock → Add item

- 1 **Naam + category** (Atta, Chawal...).
- 2 **Retail price/kg** aur **Wholesale price/kg**.
- 3 **Bag weight** (jaise atta bag = 20 kg) — optional. **Low-stock alert** level.
- 4

Save

 — item list mein aa jayega.

✓ Stock **khud badalta hai**: purchase par barhta, sale par ghatata. Manually change karne ki zaroorat nahi.

Barcode Scanner — scan kar ke item dhoondhna

USB/Bluetooth scanner keyboard ki tarah kaam karta hai — kahin bhi **barcode input** box mein scan karein, Enter khud lag jata hai.

Kahan kahan kaam karta hai

- **Stock / naya item:** item banate waqt barcode field mein scan karein — agar wahi barcode dobara mil gaya to item khud select ho jata hai.
- **Purchase (khareed):** purchase form ke upar scan karein — match milte hi wo item line mein add ho jati hai (qty/rate khud fill karna hota hai, bulk hai).
- **Retail / Wholesale sale:** sale screen ke upar hamesha scan box maujood hota hai. Agar item ka **"pack size"** set hai (jaise 1 kg shahad ka jar), quantity khud fill ho jati hai. Loose item (atta, chawal) ho to sirf item select hota hai, weight counter par manually daalni hoti hai.
- Barcode na milay to error nahi aata — bas neeche manual search se item chun lein, scan sirf **tez tareeqa** hai, majboori nahi.
- Har successful scan ke baad box khud clear ho kar dobara ready ho jata hai — lagatar scan karte jayein, mouse ki zaroorat nahi.

Naye item par barcode na mile to system "Add as new item?" poochta hai aur naye item form mein barcode khud bhar deta hai.

Purchase — supplier se maal lena

Add customer

Name
Ahmed Kiryana Store

Phone (optional) Type
0321 1234567 Wholesale buyer

Address (optional)
Saddar Bazar, Karachi

Phone is unique when given — re-adding the same number updates the existing customer.

Portal login (optional)

The customer signs in at the login page using their **phone number** and this password to view their own ledger & invoices (read-only). A phone number is required.

Save customer

Asli "Add customer" form — neeche "**Portal login (optional)**" box mein password daalte hi login chalu.

Login dene ke steps — Customers → Add customer

- 1 Name** daalein.
- 2 Phone** daalein — **Zaroori** login ke liye (yehi username banega).
- 3 Type** (Wholesale/Retail regular). Address optional.
- 4 Naya** Neeche **standing discount %** aur **credit limit (Rs.)** bhi set kar sakte hain — dono optional ([Section 10](#) mein tafseel).
- 5 "Portal login (optional)"** box mein **password** set karein. Khaali chhorein to login band. Password sirf yahin set hota hai.
- 6 Save customer**. Customer ko uska **phone + password** de dein.

Customers

Wholesale buyers and tracked regulars. Outstanding = receivable owed to you.

Total receivable: Rs. 6,750.00

NAME	TYPE	PHONE	RECEIVABLE	ACTIONS
Ahmed Kiryana Store	Wholesale	923211234567	Rs. 6,750.00	Ledger Edit Delete

Customers list — har customer ka type, phone aur outstanding receivable. Ledger / Edit / Delete buttons.

Password badalna: customer **Edit** → naya password → Save.

Login band: Edit mein **"Remove portal access"** tick → Save.

10

OWNER PORTAL · NAYA

Rates, Discount, Credit Limit — har customer ki apni shartein

Har wholesale customer ke profile page par teen naye control hain — customer ke **Customers** → (naam) page par milte hain.

Special rate (per-item)

Kisi customer se kisi item ka **negotiated rate** tay hua ho (jaise regular bulk buyer ko chawal 5 rupay kam), to customer page par item + rate save kar dein. Agli wholesale sale mein wo item automatic isi rate par aayega — line par phir bhi manually badla ja sakta hai.

Standing discount

Agar kisi item ka special rate set nahi hai to customer ka overall **discount %** (agar set hai) khud apply ho jata hai wholesale price par.

Credit limit

Customer ke liye ek **maximum udhaar** set kar sakte hain. Jab bhi koi credit sale is limit se upar le jaye, system **warn karta hai** (rok nahi leta) — owner "Sell on credit anyway" se chahe to aage badha sakta hai. Khaali chhorein to koi limit nahi (unlimited).

Priority order: **special item rate** pehle check hota hai, na mile to **standing discount**, wo bhi na ho to item ka normal **wholesale price**.

11

OWNER PORTAL

Invoice — dekhna, print, PDF, share

Har sale ka branded, do-zabaan (English + اردو) invoice khud ban jata hai — **Naya** ab item table **boxed cells** mein hai aur neeche asli Urdu Nastaleeq script mein tagline bhi print hoti hai.

Asli invoice — logo, owner ka naam, phone, do-zabaan labels (کل/ادا/باقی), aur **Print / Save as PDF**.

- **Print / Save as PDF** — browser print se PDF ban jati hai (isi se Urdu Nastaleeq tagline bhi sahi shape mein print hoti hai).
- **Naya Download PDF** — seedha ek click se PDF file save ho jati hai, print dialog khole baghair.
- **Naya Share on WhatsApp** — mobile par native share sheet khulta hai (PDF attach ke saath); desktop par PDF download ho kar WhatsApp Web chat khulti hai, PDF ko manually attach karna hota hai.
- **Naya** Har item ki row ab **boxed cell** (border wale khaanay) mein hai — traditional printed bill jaisa look.
- **Naya** Footer mein "Shukriya" ke neeche ab asli **Urdu Nastaleeq** script mein ek fixed tagline bhi print hoti hai.
- **Reprint** — purani sale ka wahi invoice (number/rate wahi, snapshot se — live price se nahi banta).

- Numbers: **PUR-** purchase · **RTL-** retail · **WHS-** wholesale.

12

OWNER PORTAL · NAYA

Cancel / Refund — ghalat sale wapis lena

Kisi bhi sale ke invoice page par sab se neeche "**Cancel / refund this sale**" option milta hai.

- 1 Invoice kholein → sab se neeche cancel link par click karein.
- 2 Chahen to **reason** likh dein (jaise "customer ne wapis kiya") — optional hai.
- 3 **Confirm cancel** → stock **wapis add** ho jata hai aur agar customer ka udhaar tha to wo **reverse** ho jata hai.
- 4 Sale record delete nahi hota — sirf **Cancelled** mark ho jata hai, invoice number aur history mehfooz rehti hai.

- ! Yeh **poori sale cancel** karta hai (line-by-line partial refund nahi) — agar sirf ek item wapis aaya ho to bhi puri invoice cancel hoti hai. Cancelled sale reports aur dashboard ke totals mein nahi ginti.

13

Customer detail — outstanding receivable, **Portal login enabled** badge, unpaid credit sales (payment record karne ke liye), aur poora ledger.

- 1 **Customers** → **(naam)** — outstanding upar.
- 2 Unpaid sale ke saamne **Payment amount** daal kar record karein.
- 3 Ledger mein har **Sale (+)** aur **Payment (-)** running balance ke saath.
- 4 **Send reminder** → customer ke WhatsApp par baqaya ke saath message.

14 OWNER PORTAL · NAYA Reports — koi bhi period, poora hisaab

Sidebar mein **Reports** — Dashboard sirf "aaj" dikhata hai, yeh section **kisi bhi date range** ke liye poora business dikhata hai.

Sales report

Retail + wholesale, date range aur channel se filter — total, sale-wise list.

Profit report

Revenue minus cost (jo rate par khareeda tha) = profit aur margin %, item-wise breakdown ke saath.

Best & least selling

Items ranked quantity ya revenue se — pata chalta hai kya zyada bikta hai, kya dead stock hai.

Cash report

Sirf cash transactions (sales + purchases) — net cash position kitna raha.

Credit report

Sab suppliers ka **payable** aur sab customers ka **receivable** ek jagah, overdue sab se upar. [Download CSV](#) button se Excel mein bhi nikal sakte hain.

Har report ke upar **From/To date** aur (jahan applicable) **channel filter** hota hai — default current month hota hai, chahein to koi bhi purana period dekh sakte hain.

15

CUSTOMER KA HISSA

Customer Portal — gaahak apna khaata khud dekhe

Jise login mila, wo **phone + password** se sirf apna data dekhta hai — **read-only**, kuch badal nahi sakta.
